TEST STREAM TIPS

For Skaters

If your skates have a spot that rubs or irritates your skin , the skater's secret is to use mole skin. Dr Scholl makes it and you can buy it in the foot care section of the store. It has a sticky backing and can be applied over the spot on your foot, ankle, heel or toe that is rubbed by your skate and will help keep the irritation to a minimum! :)

For Parents

PLAY MUSIC more often. It's a great way to watch your skater progressing and learn how the skaters and coaches encourage each other and develop that team feeling in an individual sport . You will be right at ice level in the mix, meeting the skaters ,becoming familiar with their music and programs and seeing how they interact. It will help you see the difference in the dances, skills and elements the skaters are learning. You will watch them up close working to master their new goal and there is nothing better than being there when one of the skaters finally hits that jump or spin they have been struggling with and seeing every skater and coach on the ice cheering and clapping for them!!! ... and you will have the front row seat!
